

# Pine Springs Camp Pre-Camp Protocols-What You Must Do to Attend Camp!

Please Note: The CDC does not recommend getting tested again in the three months after a positive viral test if the person does not have symptoms of COVID-19. Campers who have had a positive viral test in the 3 months prior to the start of camp and have met the criteria to end isolation should have a letter from their healthcare provider documenting the positive test date and stating that the individual is cleared to end isolation.
